

Jennifer\* describes feeling “depressed.”

BIPOLAR DEPRESSION  
SYMPTOMS:

SADNESS

REDUCED SLEEP

REDUCED APPETITE

INNER TENSION

CONCENTRATION  
DIFFICULTIES

### Other considerations:

- ✓ Her symptoms began early in adulthood, before she was 25.
- ✓ Her family history reveals bipolar disorder.
- ✓ She hasn't responded well to antidepressants (multiple failures, unsustained improvement, treatment-emergent mania).
- ✓ She describes feeling depressed today, but has a history of manic episode(s).

Jennifer's diagnosis: **bipolar depression.**

**SYMBYAX** is approved for the treatment of bipolar depression.
